

Tulsa Winch Group Fact Sheet

About the Company

Headquartered in Jenks, Oklahoma, Tulsa Winch Group is comprised of global industry leaders that specialize in the development and manufacture of standard and engineered winch, gearbox and electronic load information systems for worldwide applications. Our companies include Tulsa Winch, Inc., dp Manufacturing, Inc., Greer Company, and Pullmaster Winch Corporation based in Vancouver, B.C. Tulsa Winch®, dp Winch®, Pullmaster® and Greer® are registered brands of Tulsa Winch Group.

Tulsa Winch Group is a part of the Dover Corporation, a multi-billion dollar, NYSE-traded (DOV), global producer of innovative equipment, specialty systems and value-added services for the industrial products, fluid management, engineered systems and electronic technology markets. Dover is an S&P 500 corporation. All Tulsa Winch Group products are marketed and sold through various sales channels, including original equipment manufacturers and dealer distribution.

Tulsa Winch Group companies began as privately held entities, with the origination of Tulsa Winch dating back to 1929. Tulsa Winch joined Dover in 1996, with dp Winch following in 1999. Greer Company and Pullmaster Winch were acquired in 2000.

Tulsa Winch, Inc.

Tulsa Winch manufactures worm and planetary gear winches, worm gear speed reducers and planetary swing drives for the utility, crane, petroleum and truck equipment markets.

dp Manufacturing, Inc.

dp Winch produces hydraulic planetary gear winches, bumper winch packages, capstans and constant-pull traction winches for government, utility and truck equipment applications.

Pullmaster Winch Corporation

Pullmaster manufactures planetary gear winches for the marine, construction, forestry and petroleum markets.

Greer Company

Greer designs and manufactures specialized electronic load information systems for the mobile equipment industry.
