

Driven to Excellence

LANTEC®

There's a reason LANTEC Winch & Gear is the go-to authority for custom-engineered hydraulic winches, hoists, gear reducers, brakes and clutches.

Behind our precision technology and problem-solving mindset, behind our team of the world's best engineers and fabricators, LANTEC® raises the bar for customized gearing solutions for the oil and gas, infrastructure and marine industries. No matter how complex the application, no matter where a project takes us, LANTEC delivers the practical innovation and specialized capabilities that make us the number one choice for large-capacity gearing equipment.

For more than 45 years LANTEC has taken on the most challenging tasks—both onshore and offshore. From our computer-controlled manufacturing facility in Vancouver, British Columbia, we understand the bottom line of a project; what's at stake if vital equipment or processes don't operate reliably for the long term. That's why LANTEC stands alone in our industry, with unmatched product excellence and committed partners who bring a breadth and depth of resources and experience to every project we undertake.

At LANTEC, customized engineering for world industries is just part of our story. With a comprehensive team of problem-solvers, service technicians and worldwide distributors, LANTEC is poised for quality results—and driven to excellence.

The Difference Is LANTEC®

LANTEC Winch & Gear is one of the world's leading manufacturers of customized hydraulic winches, hoists, gear reducers, brakes and clutches for the oil and gas, infrastructure and marine industries. Virtually any of our products can be customized for your particular application to ensure maximum reliability and long-lasting operation.

LW Series Winches

Extremely versatile, the LW Series is available in 20 sizes with line pulls from 12,000 to 300,000 lbs. Virtually any drum size can be provided to suit your specific application.

LH Series Hoists

With line pulls from 15,000 to more than 72,000 lbs., LANTEC's LH Series offers 12 models for crane applications. High-efficiency gearing and high-capacity sprag clutches offer the ultimate in reliability for the most demanding jobs.

Classic Series Winches

For oil and gas, infrastructure, and other industry applications, LANTEC offers nine models with line pulls from 23,600 to 136,000 lbs. Virtually any drum size can be provided to suit your specific application.

Gear Reducers

LANTEC offers a wide range of custom and semi-custom gear reducer designs with torque ranges from 10,000 lb./ft. to more than 500,000 lb./ft. Ideal for a myriad of industries, including oil and gas, material handling, infrastructure and more.

Brakes and Clutches

LANTEC's provides standard brake solutions for high-torque, low-speed hydraulic motors with holding torque capacities up to 30,000 lb./ft. Our custom brakes and clutches are designed to meet individual requirements.

Customized Solutions

Virtually any hydraulic winch, hoist, gear reducer or brake can be designed and precision-manufactured to meet special or complex applications. Call us today to discuss your project and learn more about LANTEC's commitment to product excellence.

As a leader in product innovation, TWG is committed to the ongoing improvement of its equipment. TWG reserves the right to make changes to our products without notice.
