

## TWG Welcomes Gear Products into Our Family of World-Class Brands

We are pleased to inform you that TWG, a global leader in the manufacture of standard and engineered winch, gearbox and electronic monitoring systems, has acquired Gear Products, Inc.

As part of TWG's product portfolio, we look forward to making a long-term investment in Gear Products that leverages the value of its legacy engineering while introducing the operational, process and product improvements our customers need and deserve. These improvements will address numerous areas from sales, service and support and adoption of best practices, to delivery times, product integrity and product innovation.

As a Gear customer, your voice is critical to ensure we meet your expectations. In the coming weeks we will contact you to discuss any questions or concerns you may have, and to learn how TWG can better serve you now and in the future. Thank you in advance for your support during this transition. We look forward to making Gear Products a world-class symbol for engineered rotational systems and drive components.

# TWG Is Power to Move the World

Headquartered in Jenks, Oklahoma, TWG is comprised of global industry leaders that specialize in the development and manufacture of standard and engineered winch, gearbox and electronic load information systems for worldwide applications. Our companies include dp Winch, Greer Company, LANTEC Winch and Gear, Pullmaster Winch Corporation, Tulsa Winch, and now Gear Products.

TWG is a part of the Dover Corporation, a multi-billion dollar, NYSE-traded (DOV), global producer of innovative equipment, specialty systems and value-added services for the industrial products, fluid management, engineered systems and electronic technology markets.

dp Winch produces hydraulic planetary gear winches, bumper winch packages, capstans and constant-pull traction winches for government utility and truck equipment applications.

Greer designs and manufactures specialized electronic load information systems for the mobile equipment industry.

LANTEC manufactures hydraulic winches, hoists and gear reducers for the oil and gas, infrastructure and marine markets.

Pullmaster manufactures planetary gear winches for the marine, construction, forestry and petroleum markets.

Tulsa Winch manufactures worm and planetary gear winches, worm gear speed reducers and planetary swing drives for the utility, crane, petroleum and truck equipment markets.

Gear Products manufactures custom-engineered planetary and worm gear winches, swing drives, auger drives, slewing ring bearings, hydraulic pump drives and rotators for trucks, cranes and heavy equipment.
